Diana,

That's right, chicken is a top 24 food.

I really appreciate it. I hope you have a nice weekend too.

I presented the commodities to the DE SAC. They thought grapefruit because of couple of chemicals. They wondered aloud about Ethephon and blackberries. I thought I remembered there was a method issue with that chemical.

David Miller should be back from his 3 ½ week vacation next week so he will weigh in as well on which commodity to recommend.

David

Hi David,

Here you go. Was able to pull the information fairly quickly. I added in details where needed. Had a question about poultry – is it on the list of the top 20? It is in the top 24 kids' foods.

Thanks and have a good weekend.

Diana
